

The World of SDO®

Sensory Dynamic Orthosis

SDO® Original

SDO® Lite

Used in the management of:

- Cerebral palsy
- Acquired brain/spinal injuries
- CVA - Stroke
- Multiple Sclerosis
- Focal Dystonia
- Joint laxity - hypermobility
- Ehlers-Danlos Syndrome
- Parkinsons
- Genetic conditions
- Autism/ADHD

Patients

A steppingstone in patient recovery.

SDO® Lite is a ready-to-wear garment range that provides proprioceptive feedback through compression. Some biomechanical support is achieved which helps train muscles to work, leading to improved postural control with some musculoskeletal support.

Clinicians

Assessment - SDO® Lite
Management - SDO® Original

Improvement in:

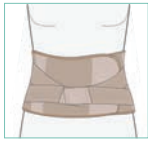

- Symmetry, posture and balance
- Fluidity of movement
- Function and independence
- Normalisation of tone
- Energy efficiency & concentration
